Subject: FW: Request for Extension for the Soil Investigation Report - INVISTA North Terminal - PX Facility

Ginny,

Hope you are doing well. The email chain below was in regard to our Soil Investigation Report due date. We had previously agreed on a due date of 1/3/13 for this report. We ended up doing 2 additional rounds of soil sampling to complete the delineation activities. As a result we did not receive the final results from the last sampling event until last week. The soil contamination is now delineated. We are currently preparing the report. In order for us to have sufficient time to prepare the document and send it through our internal review process, we would like to request a 30 day extension. Therefore, we would like to request that the new due date be 2/1/13

If you should have any questions or comments, please feel free to contact us at 910-452-5861.

Thanks,

Jeff
